Substance Use Disorder (SUD) Training

Strengthen your skills in adolescent substance use assessment and effective family communication.

The training includes **interactive case work**, **demonstration videos**, and **sample assessment tools**. It can be completed individually or used during supervision.

- Approximately **3 hours** to complete
- Includes **case studies, videos, and applied practice**
- Offers **3 Continuing Education credits** (CEs available for purchase for Social Workers, LMHCs, LMFTs, and Alcohol/Drug Counselors)

This course complements the [Assessment & Clinical Understanding](#) training. Completing that training first is recommended. View available ACU sessions [here](#).

What You'll Learn:

- Substance use trends in adolescent populations
- Co-occurring psychiatric disorders
- Screening and assessment in the CBHI context
- How to talk with parents and providers
- Substance Use Disorder diagnosis
- Motivational Interviewing
- Adolescent SUD treatment options
- Stages of Change
- Safety planning
- How to locate adolescent SUD treatment resources

Who Should Take This Training?

- IHT clinicians
- ICC coordinators
- IHBS clinicians
- Outpatient clinicians
- MCI clinicians
- FIT clinicians
- Supervisors of the above roles

Use the enrollment key **SUD-Spring-2026** when registering for the training.
